

Waterdrip

PVC waterdrip profile for formwork applications

Description

PVC profile made from recycled plastic to be applied in concrete formwork. Upon uncasting it leaves a precise and uniform groove in the concrete, serving as a drip cap.

Packaging

Bars of 2 m length, in packs of 20 pieces

Storage

The quality and the characteristics of the materials remain unaltered for a long period of time. However, it is recommended to use the product within 36 months from production date. The product must be stored in the original and unopened packaging in a dry and well-ventilated place at a temperature between + 5 °C and + 40 °C. Storage above 50 °C may lead to difficulties in removing the release liner when applying. The product is not affected by frost.
